Profile Summary

Lead Frontend Engineer with 7+ years of experience building scalable, high-performance web applications using React, Next.js, Javascript and TypeScript. Currently leading a **5-member frontend engineering team at Walmart Global Tech**, driving technical direction, architecture, engineering standards, and delivery of high-impact products at scale.

Tech Stack: ReactJS, NextJS, TypeScript, JavaScript, Redux, TailwindCSS, Python, HTML, CSS, Java, Git.

Experience

Walmart Global Tech

July 2022 – Present

Lead Front End Developer (SDE-IV)

- Led the development of the **Walmart Seller Portal** with a strong focus on **repricer, promotions and discounts**.
- Directed the complete **revamp of the discounts module**, introducing new discount types such as **promo codes, extra savings, and buy more - save more**, which boosted seller adoption and improved engagement by over 35%.
- Re-architected the **promotion services and UI workflows**, improving performance and scalability which perceived application responsiveness by 40%.
- Collaborated across teams and provided **technical leadership**, mentoring engineers and setting coding standards for high-quality, maintainable solutions.
- **Key Achievement:** Successfully led multiple strategic feature rollouts in the Seller Portal, positioning it as a more competitive and reliable platform for Walmart sellers.

Senior Front End Developer (SDE-III)

- Worked on Walmart Survey Builder platform **FeedbackAlly**, enabling customers to create surveys for internal and external audiences.
- Implemented advanced features like **drag & drop, data piping**, and modernized React components.
- Launched **AES survey** which received over 1M responses, saving around \$250K from outsourcing.
- Decommissioned **oneWire product**, saving around \$40K annually.
- **Key Achievement:** Resolved critical blockers in FeedbackAlly using **CKEditor custom build**, achieving significant cost savings and receiving the **Excellence Award**.

Tata Consultancy Services (TCS)

Feb 2020 – July 2022

Front End Web Developer (SE)

- Developed multiple **ReactJS applications** for **Activ**, working directly with engineers to build solutions for automotive manufacturing operations.
- Migrated a legacy **.NET application to ReactJS**, redesigning frontend components and workflows to create a modern, maintainable application.
- **Key Achievement:** Successfully delivered the migration, contributing to the **client contract renewal in 2021**.

Projects

- **eBat.dev** | [Github](#) | [Live](#)
A platform for blogging, creating interview questions, and practicing coding challenges.
- **WebCrafterHub** | [Github](#) | [Live](#)
An open-source developer tools portal for web development resources and utilities.

Honors and Awards

- GATE qualified with a rank of 387.
- Published an International Journal on Machine Learning.
- Maintained a **1000+ day streak** on LeetCode and solved over **1.2K problems**.
- 7-time TCS Hackathon Winner.
- Received **Excellence Award** from Walmart.
- Received **On the Spot Award** from TCS for best performance.

Education

- **Bachelor of Engineering in Computer Science and Engineering (2015 – 2019)**
- **Higher Secondary Education (Computer Science Stream) (2013 – 2015)**
